Summary

ISTQB-certified Software QA Engineer with over 3 years of experience in automation and manual testing of Web, ETL, API, microservices, and data pipelines. Adept at designing scalable test strategies, optimizing QA workflows, and maintaining software stability. My quick adaptability to new technologies, attention to detail, problem-solving skills, and strong communication abilities drive successful project outcomes and enhance my effectiveness in delivering reliable software solutions.

Experience

Software Engineer - [May 2025 - Present]
Logpoint, Nepal

- Developed and maintained scalable backend services using Python (Flask), implementing RESTful APIs and integrating third-party services.
- Implemented authentication, authorization, and security best practices (JWT, OAuth, input validation) to ensure secure API communication.

Quality Assurance Engineer - [Oct 2024 - April 2025]
Foneloan Pvt. Ltd., Pulchowk, Nepal

- Contributed to testing of a microservices-based system for analyzing bank account income/expenditure and providing short-term loans.
- Implemented API Automation Framework using a BDD approach (Cucumber, RestAssured), streamlining component-level testing and enabling better collaboration with stakeholders.
- Conduct functional, API, and database validation across different services to validate key features and integrations.
- Collaborated with cross-functional teams, including product managers and developers, to ensure feature stability and performance.

Quality Assurance Engineer - [May 2023 - May 2024]
Logpoint, Nepal

- Develop and implement a comprehensive quality assurance strategy for feature or release signoffs
- Develop test plans, test cases, review test cases and oversee the execution of tests, and ensure coverage and adherence to quality standards
- Collaborate with developers and product management across different teams for AgentX (Wazuh) with LogPoint SIEM platform
- Develop and execute API tests, and End-to-End tests for internal web applications and plugin applications for the SIEM platform
- Automate API Tests, and End-to-End Tests for internal web application and plugin integrations
- Standardized API Test Framework, Automation framework for web applications and plugins using Playwright, and streamlined QA procedures for improved efficiency
- Mentor junior QA team members on quality assurance practices, testing techniques, and tools

Associate Quality Assurance Engineer - [Aug 2021 – Apr 2023]

Logpoint, Nepal

- Develop comprehensive test cases, and test data covering the necessary test scenarios based on requirement documents
- Document and track defects, providing detailed information and working closely with the development team
- Develop and optimize regex-based log parsers for improved performance, enhancing efficient log data interpretation
- Create an internal tool for automating regression tests of log parsers, query validation of analytics content, and application bundle verification, reducing manual testing time by 50%
- Create and verify analytics content for SIEM, SOAR, and UEBA platforms

Technical Writer - [Mar 2020 - Aug 2021]
Entegra Sources Pvt. Ltd.

- Developed and reviewed documentation for Customer Engineering services, ensuring clarity and precision in technical materials

Technical SkillSet

Tools & Technologies: Postman | Playwright (using python) | JMeter (Basic) | (Xray) Jira
Programming Languages: Python | SQL | Bash Scripting | Java (Basic)
Databases: MongoDB | SQLite
Miscellaneous: Git | Docker | Jenkins | Linux | Atlassian (Bitbucket, Confluence, Jira)

Certifications / Courses

PCAP – Certified Associate in Python Programming - *Python Institute* - Aug 2023
Link: https://verify.openedg.org/?id=6rrv.MNHh.DB23

Certified Tester Foundation Level (CTFL) - *ISTQB* - Sep 2022
Link: Verification Link

Course Badges: https://www.credly.com/users/bibek-ghimire.daedee92

Skills & Competencies

Hard Skills: Test Planning and Execution | Test Automation | API Testing | Regression Testing | Functional Testing | Performance Testing | Defect Tracking | Security Testing | Root cause analysis | Agile Methodologies

Soft Skills: Problem Solving and Troubleshooting | Communication | Teamwork | Attention to Detail | Adaptability | Time Management | Technical Aptitude and Learning Agility

Education

Bachelor's Degree in Electronics and Communication Engineering - [2015 – 2020]
Eastern Region Campus, Institute of Engineering, Tribhuvan University
